

ergoplati™

Open: your best friend – a perfect neck pillow that also offers support to your lower back

Closed: portable and easy to bring with you wherever you go

Flexible – reversible with a rounded, flat side

Practical – works as support for both the back of neck and lower back

Portable – requires little space in luggage and hand-bag

Smart – use the valve to adjust firmness for support

Free from down – made of synthetic material

Lightweight – weighs no more than an apple

Art.nr. 670998

Flat side against the spine

Suitable for those having a slight lower back curve or in need of little and softer support.

Rounded side against the spine

Suitable for those having a significant lower back curve or in need extra and firmer support.

Rounded side against neck

Maximal support and relief for the back of the neck in both seated and reclined positions.
