

PRODUCT INFORMATION

DLITE™ is a newly developed LED fixture for the professional workplace. Through modern technology and high quality components it combines functional and adjustable lighting with contrast-enhancing properties and true color rendering (CRI >90).

DLITE™ is constructed of modern materials so as to blend into any environment. The fixture is equipped with a so-called moodboard that easily adjusts as desired.

Dimming and color temperature adjustments are obvious and utilizes intuitive operation via elegant touch controls. In combination with the smart display that shows time, date and indoor temperature the DLITE™ becomes the obvious choice for all workplaces.
