BE-GE 300 24h

BE-GE 300 24h is our popular operator and surveillance chair. The chair originates from our work within the driver's seat environment and its unique settings provide users with even further seating comfort.

The chair is delivered complete with armrest, comfort headrest, air lumbar support and adjustable side support.

BE-GE 300 24h is provided with a smooth and comfortable knee joint rocking mechanism with function settings for a wide variety of seating positions and postures. The chair also has a unique back adjustment feature that makes it even easier to vary its positions.

Choose among our fabrics to easily adjust the chair's appearance to your specific environment.

Facts.

- » Knee joint rocking mechanism 19°
- » Weight 35 Kg
